

NextGrid Technologies — Email Hacked? 7-Step Incident Response

What to do in first 30 minutes when email sends spam at 3am | Updated: 25 July 2026 | For SA SMEs 5-50 staff

1. Change password + revoke sessions

From another device, change password, revoke all sessions in M365 > My Account.

2. Enable MFA number matching

Enforce immediately, block legacy auth.

3. Check Inbox rules

Hackers create hidden rule forwarding to external Gmail. Delete all unknown rules.

4. Check Sent Items

Look for invoices sent with new banking details — warn recipients.

5. Check OAuth apps consented

M365 > Enterprise Apps — revoke Mail.ReadWrite from unknown apps.

6. Reset finance team + check banking details

If finance mailbox hacked, verify supplier bank details changes.

7. Notify per POPIA if needed

If personal data exfiltrated, notify clients + Regulator within 72h. We provide template.

Our monitoring

Our 24/7 monitoring catches rule creation in 2 min. WhatsApp 076 948 9154 — avg response <15 min business hours.
